

Fanfare

Fanfare is a culmination of 12 years of musical exploration. It's a unique solo act, looping both guitar and violin alongside deep soulful vocals and fresh beatbox beats. It carries heavy influences from extensive travel and busking overseas in the East. The style definitely leans somewhere between Otis Redding, Owen Pallett and Balkan folk. No stranger to pushing the vibe on the dancefloor, he knows how to mix it up with some strange meanderings and downtempo segways. Fanfare has hundreds of shows under his belt and looks to continue to spread the groove!
